PROFILE SUMMARY

Aspiring web developer with a strong foundation in HTML, CSS, and JavaScript, currently pursuing a Bachelor's degree in Software Engineering. Passionate about creating efficient and user-friendly web applications, with a keen interest in advancing skills in React and Node.js. Looking to contribute to innovative projects and further develop my expertise in web development.

WORK EXPERIENCE

Projects

- Bankist symbolic clone web App: Led the development of a dynamic banking platform website, integrating secure transaction functionalities and contemporary design features to boost user engagement.
- OmniFood clone website: Directed the creation of a responsive and user-friendly website for a fictional food delivery service, emphasizing intuitive design and a seamless user experience.

Technical Skills

- Web Development: HTML, CSS, JavaScript, React.js, Node.js
- Tools & Technologies: Git, GitHub, Visual Studio Code, Chrome DevTools
- Other Skills: Problem-solving, Debugging, Version Control, Team Collaboration

Achievements

- Ranked in the top position of students in the Software Engineering department in my class. And I'm progressing to learn more on this new tech industries.
